We are looking for a new **ux/ui designer** recruit.  
Have you got what it takes to be our new agent?

# Let's investigate fishy user behaviours

## CONTEXT

Bureau Twentytwo is a Company of Creatives that specializes in visual brand management. We value good ideas, hard work and precision. You will have the chance to participate in cross sector projects and learn new software skills. Knowledge sharing is welcome and practiced every day.

We base our work on the principles of total design and our team supports the interdisciplinary skillset to create any digital or analogue product.

We are looking for people who are ready to learn and improve themselves on a daily basis, as well as properly receive and use constructive criticism to their advantage. We always welcome new ideas, not just in the industry we work in, but in the workplace too!

## JOB DESCRIPTION

We are looking for a UI/UX Designer to turn our app/web projects into easy-to-use products for our clients. The position would focus on ensuring that elements of the project are optimized for improved usability, experience, and exceptional visual design. Another part of the job is research and user experience that involves user personas and high level planning.

## RESPONSIBILITIES

- > Gather and evaluate user requirements in collaboration with product managers and engineers
- > Illustrate design ideas using wireframes, process flows and sitemaps
- > Design graphic user interface elements, like menus, tabs and widgets
- > Develop UI mockups and prototypes that clearly illustrate how sites function and look like
- > Conduct layout adjustments based on user feedback
- > Prototype apps, communicate with developers and prepare your design for development

## REQUIREMENTS

- > Proven work experience as a UI/UX Designer or similar role
- > A keen eye for aesthetics and details
- > Good communication skills
- > Neatness, orderliness, tidiness
- > Attention to detail
- > Ability to work methodically and meet deadlines
- > Degree in Design or Computer Science or related field is a plus

## SOFTWARE/SKILLS

### [required software]

- > Adobe Illustrator
- > Adobe Photoshop
- > Adobe XD
- > Figma

### [analogue skills]

- > UX research
- > Wireframing
- > Sketching

## TEST

**EZ Lifestyle** needs a complete makeover of their Home Page!

They are a US company dedicated to making life easier in this fast moving world. Their products are scientifically-sound supplements called DreamEZ, OverEZ and FuelEZ. They work closely with farming communities in Brazil to ensure their products are 100% natural and vegetarian-friendly, but also 100% ethical for the farmers helping to grow, package, and distribute our supplements.

Some pointers on what should be presented on your design:

- what grid system is used
- chosen fonts and text formatting
- hover states
- newsletter application section

We are going to evaluate your work based on your creativity, user experience knowledge, attention to detail and tidiness. So get those neurons flowing and crank your creativity up! We are excited to see your design!
